❑ Stock: 24# Security Paper

❑ Polywrap Protected

❑ 1-Part Only

❑ Perf Positions: Top & Center 3 ½" & 7" Bottom 4" & 7 ½"

One of the most popular security features, the hidden message VOID technology, is also the most likely to fail. Manufacturers of the VOID can't keep up with the ever changing copier and scanner technology in today's world. We layer the security on our check stock to eliminate the ease of copying our products and leaving businesses at risk for counterfeiting. One of the best security features is the thermochromic ink that you can find on many of our stock products. This fades with heat and is impossible to copy. For best results, the recommended colors are PMS 281 Blue, PMS 249 Plum, PMS357 Green or PMS 175 Brown. The best pantographs to use are 933 Camo or 008 Scallop Voids.
