Total Vantage

Make Sure Your Checks Are Secure!

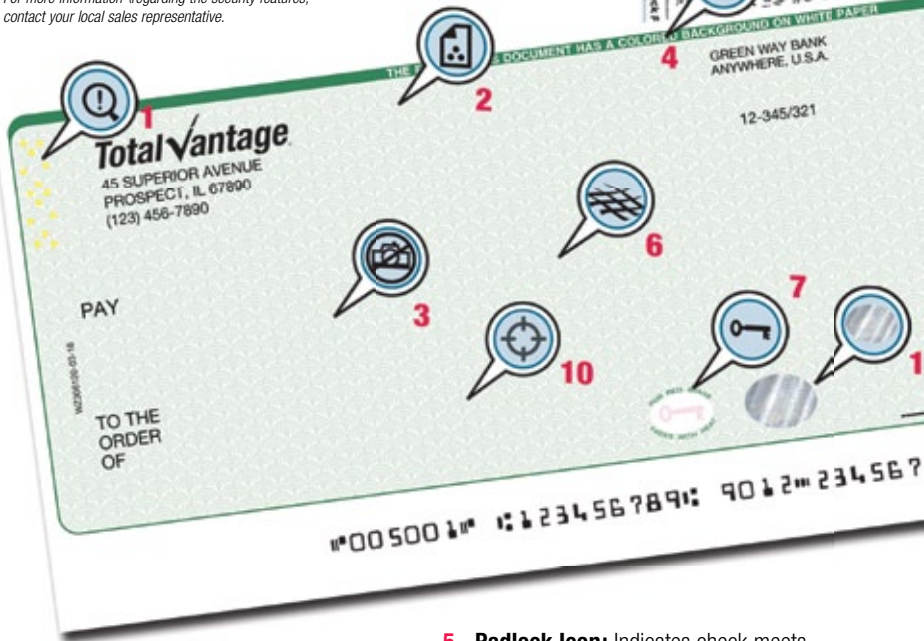

Protect your checks and financial future. Our check security features are unmatched in the industry and help prevent criminals from gaining control of your personal financial holdings – **guaranteed**.

Our high-quality security paper adheres to the latest ANSI standards (Check 21 Compliant) for image readiness.

One of the most popular security features, the hidden message VOID technology, is also the most likely to fail. Manufacturers of the VOID can't keep up with the ever changing copier technology in today's world. That's why we layer on the security in our financial products to eliminate the ease of copying the products and leaving the user at risk for counterfeiting. One of the best security features is the thermochromic ink which you can find on many of our stock products. This fades with heat and is impossible to copy. For more information regarding the security features, contact your local sales representative.

CHECK SECURITY FEATURES

- 1. V-Dot Technology:** triggers the anti copy chip in most color copiers. When the chip is activated, the copy becomes unusable
- 2. Toner Adhesion**:** Prevents erasure and tampering with laser printed data.
- 3. Photocopy Void***:** The word "Void" will appear when photocopied.
- 4. Security Warning Band Border:** The most popular security border available.
- 5. Padlock Icon:** Indicates check meets industry standard security guidelines listed on back.
- 6. Invisible Fluorescent Fibers in Paper:** Fibers in paper stock are revealed under a black light.
- 7. Heat Sensitive Thermochromic Icon:** Red key disappears when subject to heat or touch (on back for Standard Plus).
- 8. Chemical Stain:** Sensitized paper reacts to chemical attempts to alter check.

3-TIER CHECK SECURITY FEATURES

9. Microprinting on Signature Line:

Reads "Authorized Signature." When copied or altered, this line is not readable.

10. Pigment Based Ink:

Pigment-based ink printed areas will NOT wash away when chemical alteration attempts are made.

11. Hologram****:

Three dimensional metallic image fused on paper.

12. Padlock Icon on Back:

Lists additional visible and concealed security features.

13. True Fourdrinier Watermark*:

A diamond shaped watermark can be seen only when held at a 45 degree angle and cannot be altered or reproduced.

14. Screened Check Back:

Deters duplication. Screen does not reproduce when copied.

15. Mobile Check Backer

16. Digital Verification Grid:

The verification grid appears on the original and disappears when photocopied.

17. Non-Negotiable Phrase:

Secures voucher from alteration.

* True watermark available only on Standard Plus Laser Checks.

** Toner Adhesion available only on Standard Plus and Stock Laser Checks.

*** Photocopy Void, optional on Standard Plus Checks; available with Scallop Void on Standard and Stock Laser Checks.

**** Hologram available only on Standard and Stock Laser Checks with Scallop Void.

PEGBOARD CHECKS

Manual “One-Write” Accounting Systems

Pegboard Accounting Systems – More useful than ever!

The small business boom created a resurgence of a need for a superior, yet simple bookkeeping system for new startup organizations.

Demands on the time of a small business owner starting his or her company don't permit spending hours learning some confusing accounting software. However, maintaining accurate records is critical to the survival of the business. And frankly, most small businesses don't need all the complicated bells and whistles that come with those programs.

Pegboard accounting systems are the perfect solution for saving time and money while still keeping accurate records for the small business entrepreneur. There's no need to learn costly software and you eliminate multiple entries required for other manual accounting methods, minimizing errors.

One-Write Pegboard products include:

- Complete “Starta-Systems”
- Binders & Posting Trays
- A wide variety of checks
- Journals
- Ledgers
- Matching Envelopes
- Statements
- Receipts
- Compensation Records
- Gift Certificates

AND MUCH MORE!

Complete “Starta-Systems” are available.

Every “Starta-System” includes: All you need to get your business rolling including business checks for either disbursement and/or payroll, a folding pegboard binder, journals, matching envelopes for your checks, and easy to understand instructions on how to use the system.

The One Write Advantage: Write once and all the duplicate entries and transposition errors are eliminated. No entries in check stubs or registers, and no envelopes to address.

PEGBOARD CHECKS

Manual "One-Write" Accounting Systems

Additional accessories and replacement items also available.

To make your Starta-System more useful, add ledgers or compensation records. The system can be used for statements and receipts as well. And, finding what you need fast is easy with trays, post binders, indexes and other One-Write pegboard accessories.

A wide range of compatible systems available.

If you are already using pegboard, we offer the most extensive line of pegboard products around. This selection includes a variety of compatible pegboard punch styles including many hard to find forms.

Standard safety features on Pegboard Checks prevent fraud.

Our checks incorporate no less than **five separate safety features** into the design to prevent check fraud. Also, we've made considerable effort to assure the check meets ANSI standards for Check 21 compliance wherever possible without impacting the performance. Checks are also available in both clear-stripe and carbon-band styles in a variety of colors and pantographs.

A Model For Every Size Business

Low Volume Applications

The **PSM1800** and **PSM3000** make pressure seal a viable option for small business. It brings all the pressure seal capabilities to customers processing as few as 6,500 documents per year. It folds and seals all popular fold types with adjustable fold plates.

Low to Medium Volume Applications

The **PSM5000** delivers unparalleled value to the pressure seal market. Ideal for small to midrange users, it includes an integrated conveyor output system to maintain document processing order. A digital counter with a batch-counting mode is provided for accurate record-keeping and document processing. The robust duty cycle, combined with the unique bottom feed system, enables maximum return on your investment!

Medium Volume Applications

The **PSM7000** is an integrated folder/sealer with an impressive 7,000 sheets per hour to satisfy even the tightest deadlines. The integrated conveyor output system helps move your forms in a seamless paper stream, while maintaining processing order. The user-friendly, robust duty cycle makes this attractive to medium volume, mid-sized organizations.

High Volume Applications

The **PSM10K** is an integrated folder/sealer designed for organizations with high-volume applications. The integrated conveyor output system helps move your forms in a seamless paper stream, while maintaining the processing order.

Specialty Model

The **PSM6500** is a stand-alone folder/sealer system and is ideal for small to midrange users. It folds and seals all popular fold styles eliminating folding, stuffing and sealing, all with no add-on parts or additional charges. It can also be used as a folder to quickly prepare promotional materials or other office correspondence requiring a standard or windowed envelope.
