Fight Against Fraud! MEDICAID Compliant

Security Features Listed on Back
Advises recipient of the security features on pad. Allows recipient to verify and reject if the features do not match the listing.

- Rx logo disappears or changes color temporarily with hot breath or when rubbed briskly with finger.
- The face of this document has a blue background on white paper.
- Security Prescription watermark on back.
- Repetitive VOID pattern appears across face when color copied.
- Stain appears where attempts are made to chemically alter the prescription.
- Microprinting in border lines.

Thermochromic Ink
The Rx symbol disappears with hot breath or when rubbed briskly with finger. It will disappear when photocopied.

Scallop Void Pantograph
Repetitive VOID appears across face when color copied.

Chemical Protection Paper
A stain will appear where attempts are made to chemically alter the prescription form.

Blue or green background on white paper
Will inhibit a forger from physically erasing written or printed information.

Invisible Fluorescent Fibers
Fibers cannot be photocopied and are visible only under a UV light.

Artificial Watermark on back.
When held at an angle, words "SECURITY PRESCRIPTION" appear and cannot be reproduced.

Microprinting
A magnifying glass must be used to read the "original document" printed within the line. When copied or scanned, the lines become solid.

Watermark printed in coin reactive ink
When rubbed with a coin, words "SECURITY PRESCRIPTION" change color

PRESLBL4

❑ Scallop Blue or Green Background

❑ 1-Up, 2-Up (perforated), 4-Up (perforated), or script in corner

*One of the most popular security features, the hidden message VOID technology, is also the most likely to fail. Manufacturers of the VOID can't keep up with the ever changing copier and scanner technology in today's world. That's why we layer on the security in our check and prescription pad stock to eliminate the ease of copying our products and leaving your customer at risk for counterfeiting. One of the best security features is the thermochromic ink that you can find on many of our stock products. This fades with heat and is impossible to c opy. For more information regarding our security features, contact your local sales rep. For best results, the recommended colors are PMS 281 Blue, PMS 249 Plum, PMS357 Green or PMS 175 Brown. The best pantographs to use are the 933 Camo or the 008 Scallop Voids
