

High Security Laser Rx Sheets get the Green Light

Advancements in drug discovery continue to fuel modern health care. To put it into perspective, in 2023 alone, 55 novel drugs were approved by the U.S. federal government's Center for Drug Evaluation and Research. That's only a fraction of the 21,000 drugs currently in the global research and development (R&D) pipeline—the work of over 5,500 pharmaceutical companies with active R&D. As the industry increases, so does the need for high-security prescription solutions.

Wilmer is proud to add a green option (PRESGNHLGN) to our line of High Security Rx Laser Sheets at the same price as our other stock laser sheets.

As an approved security printer, Wilmer offers tamper-resistant sheets that meet or exceed State and Federal regulations with 9 standard security features to guard against attempts to copy, modify, erase or counterfeit:

- Chemical protection paper
- Scallop VOID pantograph
- Blue or Green colored background on white paper
- Invisible fluorescent fibers
- Microprinting
- Thermochromic Ink
- Security Feature listing
- Artificial watermark
- Watermark in coin reactive ink

Go Big on Small Quantities

Small business continues to be the lifeblood of the US economy. From mom-and-pop businesses and online operations to start-ups and local service providers, small businesses with 500 employees or less account for 99.9% of U.S. firms. These small but booming businesses are driving the need for customized forms and smaller quantities for their day-to-day operations.

Wilmer is here to deliver on the demand with our new Small Quantity Business Forms.

With quantities starting at just 250, this line includes:

- Sizes
- 4.25" x 5.5"
 - 8.5" x 5.5"
 - 8.5" x 11"

Parts

- 1 Part (20# White Bond)
- 2 Part (20# White, 20# Canary)
- 3 Part (20# White, 20# Canary, 20# Pink)

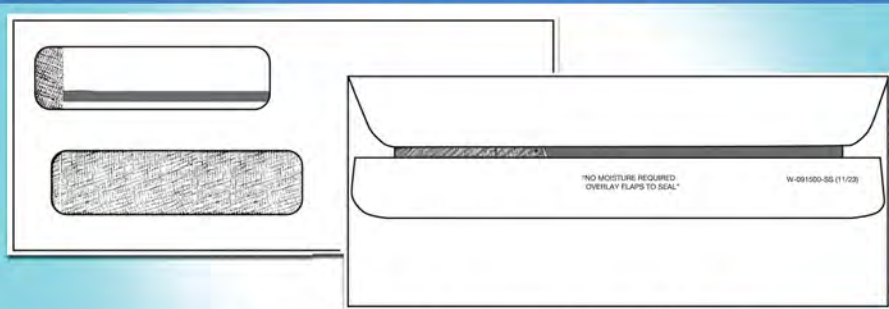

Customizable Black Ink Imprints

- 1-sided and 2-sided prints available

SEE & SEAL

Get twice the attention with NEW Self-Seal Double Window Envelope

What's better than a window envelope? An envelope with TWO windows AND a self-seal flap of course! That's just what Wilmer added to our extensive line of envelopes: **W-091500-SS**. This double-window, self-seal envelope with side seam allows for company name and return address to show through the upper window and address information to appear in the lower window. Comparable to our double-window gum seal version, this new envelope is available in plain (**W-091500-SS**) and an imprint option (**W-091500-SSIMP**) and is compatible with R&R Post-Rite pegboard envelopes.

Dimensions

- 3-5/8" X 8-5/8"
- The upper window size is: 1" X 3-3/4" left - 3/8" and bottom - 2-1/4"
- The bottom window size is: 1" X 4" left - 5/8" and bottom - 9/16"

Security Features

- Inside tint
- 24# white wove stock

LOWER PRICING on Stock Computer Paper

How often do you see the words "lower pricing" these days? Your eyes do not deceive you. Wilmer is now offering its plain, continuous stock computer paper at a lower price. Choose from different sizes, ply arrangements in white, and perforated for dot matrix printers. For customers who print reporting jobs, high speed print jobs and large volume jobs, the savings add up. **Spread the good news today!**

NEW durable document organizers

GOOD GOLLY, IT'S EPOLY

Many office desks, home offices, kitchen counters and even dining room tables are covered in stacks of paperwork and important documents. It's not for lack of space though. Experts say 80% of the clutter in the home is a result of disorganization. And studies show that using the correct organizational tools can improve time management by 38%. That's where new **EPOLY Document Organizers** from Wilmer come in!

Crafted from durable polypropylene material known to resist wear, tear and stains, EPOLY organizers keep documents in a secure, protective place. Available in folders, folios, envelopes and zip bags, Wilmer EPOLY document organizers are:

- Ideal for a variety of industries from education and finance to legal, healthcare, real estate and more
- Robust and virtually odorless for long-time usage
- Perfect for cutting-edge print technology such as pad printing, silk screening, and heat transfers for 4-color process (available on select items)
- Customizable to allow customers a distinctive branded specialty that leaves a lasting impression

If your customers are ready to get organized and customized today, contact Wilmer Customer Service today at (888) 567-7373 or cs@wilmerfolders.com

Hot Takes from PSMailers Guy

New website keeps it cool and easy

Greetings, PSMailers fans and blog followers!

As the heat dome scorches much of the country this summer, I thought to myself, "What better time to make a big splash with my new Hot Takes column than the summer issue of WilmerWorks?"

Some of you may know me as the wise (and witty?) guy who has shared the latest and greatest news on everything PSMailers on the PSMailers website for the last 10 years. A few pounds, gray hairs and wrinkles later, I will now be sharing PSMailers info and insights with you here in this space every quarter.

My debut hot take is one I think you'll enjoy as much as the lazy river at the water park: **PSMailers has recently debuted a new website, visit psmailers.com and Bookmark <https://info.navitor.com/acton/media/8318/psmailers-home> to find product information as simple and efficient as PSMailers systems. If you want to see some action, check out the videos of each folder-sealer model in motion, from the PSM1800 to the high volume PSM10KPRO. Cool as the cucumbers taking up all the space in your garden, right?**

Stay tuned next quarter for more hot takes from your expert in the wonderful world of pressure-seal printing, where our machines work faster than me trying to finish my popsicle before it melts onto my keyboard.
