Tamper-Evident Plastic Coin Bags

A complete system for one-time coin deposits and transfers, **CoinLok®** tamper-evident bags are the safe, secure alternative to canvas coin bags. Strong, water-resistant **CoinLok** bags are designed to hold up to 50 lbs of coin.

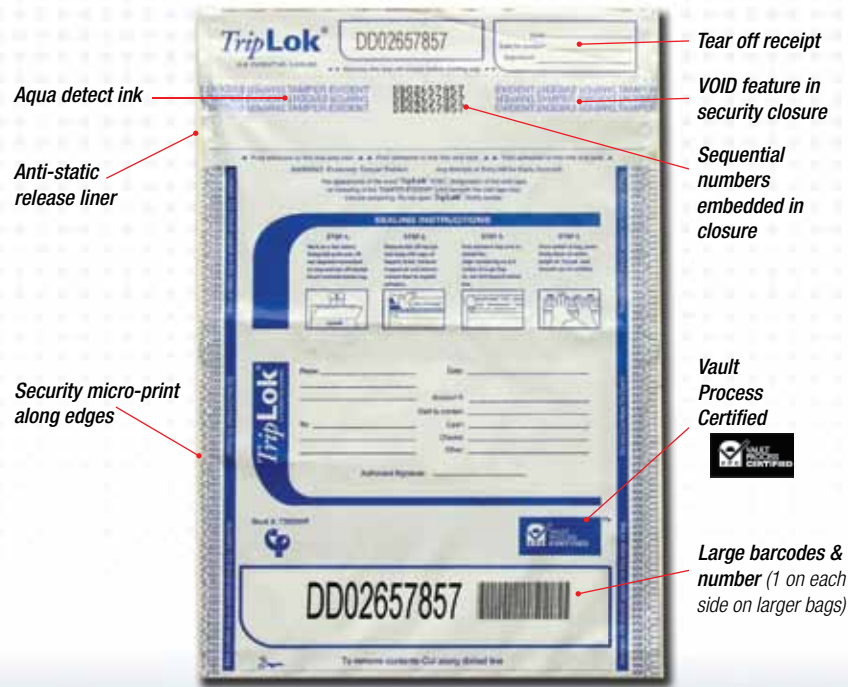

- Eliminates lost tags, seals, crimpers, dirty canvas, health risks from lead seals and bag return/sorting expenses.
- Specially formulated film resists tampering and provides strength with low slip.
- Customizable to fit your exact requirements.
- Compatible with major coin counting, sorting and bagging equipment.

Currency Security Bags

Designed to meet stringent Vault Process Certification (VPC) standards, **TripLok®** bags offer enhanced security and superior fraud deterrence. As a leading choice of major bank vault managers, **TripLok** bags dramatically improve cash management performance and lower costs in the vault, as well as in all currency handling applications.

- **Meets all new FED Cash security bag requirements and specifications.**
- Exclusive interior sealing system with pocket protects contents with triple layer of custom-blended adhesive.
- Thin, yet strong and highly durable film technology improves overall efficiency.
- Four easy-to-read barcodes with large 3/4" numbering allow easy scanning by security cameras.

Deposit & cash Transfer Bags

SafeLok® bags incorporate "Press2Lok" seal technology, utilizing a high security void tape with an inline closure. This void tape is specially formulated to display void evidence when subjected to heat, cold, or chemicals.

- Press2Lok closure – simply press and it's closed
- VOID message appears in sealing mechanism when subjected to cold temperatures or chemicals
- Specially formulated thermochromic ink turns red when subjected to heat.
- Random printed black line graphics prevent the cut and replacement method of tampering
- High performance films and side seams meet all Federal Reserve guidelines.
