RECORDING SALES:

* If you use separate journals, use the Sales Journal to record Invoices.

1. Select the customer's ledger card and statement for the first sales slip or invoice to be posted.
 2. Place the ledger card on the journal so it rests against the pegs. The first writing line of the ledger must align with the first writing line of the journal.
 3. Place the customer statement over the ledger card so it rests against the pegs. Be sure the first writing line of the statement aligns with the first writing line of the ledger card.
 4. From the sales slip or invoice, enter on the statement the Date, Reference Number, and Description (i.e. Invoice Number). Enter the Amount of the invoice in the Charge column. Extend the new balance to the Balance column on the statement. (See A of illustration 2)

* NOTE: The Reference Number indicates the type of journal and the page and line number where the transaction is posted. Therefore S/R-1-8 indicates a combination Sales and Cash Receipts Journal, page 1, line 8.

ILLUSTRATION #2

RECORDING RETURNS AND CREDITS:

1. For form alignment, follow steps 1-3 under Recording Sales.
 2. Enter the amount of the return or credit in the Credit column on the customer statement.
 3. The balance on the statement must be reduced by the amount of the credit. If the customer's balance was zero, bracket the figure in the balance column to indicate a credit balance. This figure must also be bracketed in the Distribution column to indicate a negative balance.

RECORDING CASH RECEIPTS:

1. Position the statement and ledger to the next available writing line on the journal.

Note: It is recommended that you leave a blank line between each set of charges and payments.
 2. Enter the Date, Reference Number, Description (check number) and amount of the payment in the Credit Column on the statement. (See A of illustration 3)
 3. The balance column should reflect the previous balance less the amount of the payment. (See B of illustration 3)
 4. The previous figure in the Balance column on the statement should be entered on the ledger in the Previous Balance column for the current posting. (See C of illustration 3)
 5. Distribute the cash received amount in the far right column of the journal. (See D of illustration 3)

ILLUSTRATION #3

PROVING THE JOURNAL:

1. Total all columns and enter the amounts in the **Totals This Page** line at the bottom of the journal. (See A of illustration 4)
2. Add the total of the Previous Balance column to the total of the Charges (debit) column. This sum total less the total of the Credit column must equal the total of the New Balance column. (See B of illustration 4)
3. Add the **Totals This Page** to the totals from the previous journal page to determine **Totals To Date**. Carry the **Totals To Date** forward to the next journal.
