

# Hello, Hologram!

Stock Prism Hologram Checks offer style without sacrificing security. Check fraud is on the rise due to an alarming increase in mail theft, according to the FBI and United States Postal Inspection Service. In fact, Suspicious Activity Reports related to check fraud have nearly doubled from 2021 to 2023.

That means, check security features like holograms are more important than ever. But you don't have to sacrifice style and customization with secure check products. Wilmer's Stock Prism Hologram Checks, designed with advanced hologram technology to prevent fraud, offer customization options that allow businesses to maintain their brand image and a higher level of style and professionalism.

Hello, hologram. Goodbye, fraud and bland business products! For more information on our line of Stock Prism Hologram Checks, visit [4wilmer.com](https://www.4wilmer.com).

# COLOR is the cure for better medical billing

In the healthcare industry, receiving payment for services on time begins with one critical document—the medical billing statement. It has been reported that about 14 million people in the US owe more than \$1,000 in medical debt, while 3 million owe more than \$10,000 in medical debt.

To garner greater attention from patients, something as simple as adding color to medical billing statements can make a big difference in patient response. Bringing better business solutions like this to your healthcare customers is our business!

Here's what Wilmer's colored medical billing statements offer:

- **Higher payment response rates:** Research shows that color can increase engagement. Colored billing statements grab attention, making it more likely that patients will notice their bill and pay on time. Important information like "Amount Due" or "Payment Deadline" can stand out more effectively.
- **Improved readability:** Color helps organize information by highlighting key sections, such as due dates, outstanding balances, and payment instructions.
- **Professionalism and branding:** Using brand colors in statements enhances professionalism and reinforces brand identity. A well-designed, colored statement gives patients the impression that the practice is organized, professional and attentive to detail.

Incorporating color into medical billings can transform a simple piece of paper into a powerful communication tool, leading to better understanding, quicker payments, and stronger relationships with patients. Wilmer is here with multiple medical billing sheets to help your client gain the most out of their statements. Contact us to find out more: [wcs@4wilmer.com](mailto:wcs@4wilmer.com), (800) 494-5637.

# Brew up the perfect pressure seal choice—just like your morning latte!

Let's talk choices. Like the moment when you step into a coffee shop and scan the endless menu of lattes, cold brews, and oat milk foam creations. The choices are wonderfully overwhelming. The pressure is real!

And speaking of pressure, picking the right Pressure Seal Document is kind of like that choosing that special cup o' Joe—except instead of fueling your caffeine addiction, it fuels efficiency and cost savings. With more than 60 different Pressure Seal Documents compatible with our PSMailers systems, you can't go wrong with any choice. There's C-Fold, Z-Fold, V-Fold, and EZ-Fold, each available in different sizes and features. It's like having a whole craft coffee bar of options—but for your mailing needs.

And just like the perfect coffee blend, it's not just about selection—it's about performance. With PSMailers, businesses:

- **Save time and money** – Less labor, fewer materials, and more efficiency
- **Eliminate envelopes** – The document is the message and the envelope
- **Cut paper usage in half** – Folds and seals in one step
- **Reduce waste** – Less waste, less hassle, more productivity

Oh, and if you're worried about how to brew up the perfect mailing process, don't forget—we also have PSMailers Machines to get the job done!

So, whether your customers prefer their mailing process bold and strong or smooth and easy, we've got the Pressure Seal Document to match.
